

## Career Services Assignment Week 2 – GitHub Profile Setup

**Instructions:** Follow the steps below to set up your GitHub account profile. After watching the video, **Source Control with Git Overview**, you should have already set up a GitHub account for this program. If you have not setup your GitHub account, review the above video in Week 1's curriculum and set your account up before proceeding with this assignment.

1. GitHub should not be thought of as a resume or networking tool as much as it should be a place to showcase your work and code. To that end, having a GitHub profile that is personalized shows potential employers or clients that you care about your work.
2. Now that you are set up with GitHub, let's get your profile page ready to go!
3. First, upload a high-quality headshot to your profile page.
4. Next, update your profile to discuss what you do and what you are learning. You must think about this one, because GitHub doesn't give you too many characters to accomplish this task.
5. Follow at least three (3) of your classmates, teachers, or any repository of interest to you.
6. Go to one of your repositories and update the **About** section to discuss what the purpose of the assignment is and tag the languages used like below:

7. Finally, add a link to your GitHub profile on your LinkedIn page.

**NOTE:** If you are choosing not to update a LinkedIn page because of your specific employment situation, that is acceptable. If this is the case, please put a note below the **Attach Screenshots of Your Finished LinkedIn Profile here** section below.

## Career Services Assignment Week 2 – GitHub Profile Setup

Attach Screenshots of Your Finished LinkedIn Profile here:

Link: <https://www.linkedin.com/in/dylan-perkins-aa248623a/>

The screenshot shows a LinkedIn profile for Dylan Perkins. The header includes the LinkedIn logo, a search bar, and navigation links for Home, My Network, Jobs, Messaging, Notifications, and Me. The profile banner features a colorful illustration of people working and interacting. The profile picture is a circular photo of a man with a beard and a cap. The name 'Dylan Perkins' is followed by '(He/Him)'. The current position is 'Software Engineer Student at Worcester State University' in Worcester, Massachusetts. The profile has 2 connections. There are buttons for 'Open to', 'Add profile section', and 'More'. A section titled 'Open to work' indicates 'Software Engineer and Intern roles' with a 'Show details' link. Another section encourages sharing hiring information. The 'Analytics' section shows '2 profile views', '35 post impressions', and '1 search appearance'. The 'Resources' section shows 'Creator mode' is 'Off'. On the right, there are suggestions to 'Edit public profile & URL', 'Add profile in another language', and an advertisement for NuCurrent. Below the ad, a section 'People you may know' lists Luis Pena, Ashley Kreiger, and David E. B.ENG, each with a 'Connect' button.

## Career Services Assignment Week 2 – GitHub Profile Setup

Attach a Screenshot of Your updated GitHub Account here:

Link: <https://github.com/DylanPerkins>

The screenshot shows a GitHub profile for Dylan M. Perkins. The profile includes a circular profile picture of a man with a beard and a red hoodie. The name 'Dylan M. Perkins' and username 'DylanPerkins' are displayed. Below the name is an 'Edit profile' button. To the left of the profile, there are social links for Joyn, Massachusetts, a location pin icon, the time '21:53 (UTC -05:00)', a Twitter handle '@dvl\_svg', and a LinkedIn profile 'in/dylan-perkins-aa248623a'. The main content area shows a README file with the text 'Hi there' and a bio. The bio states that the user has always been drawn to technology, has an Associates Degree in basic engineering from Quinsigamond Community College, and is enrolled at Worcester State University for a Bachelor's Degree in Computer Science. The bio also mentions that the user is currently learning Python, Java, and SQLite, and has an internship through Joyn. Below the bio, there are four popular repositories: 'promineo\_tech\_bootcamp', 'codewars\_java', 'codecademy\_java', and 'Python\_Learning'. Each repository has a 'Public' label and a brief description.

DylanPerkins / README.md

Hi there 🙋

I have always found myself being drawn to anything related to technology even since I was a child. I always tried to tinker with things and have a good understanding of how everything works. That prention has followed me into adulthood where I am now striving towards becoming a Software Engineer.

I currently have an Associates Degree in basic engineering through Quinsigamond Community College and I am enrolled at Worcester State University in an effort to complete my Bachelor's Degree in their Computer Science Major, Concentration in Software Development program.

I am currently learning a few languages right now:

- Python: I have the most experience in this language and feel the most comfortable with it but am by no means anything above a beginner.
- Java: Just starting the basics, but I am enjoying it so far!
- SQLite - I have a bit of basic knowledge and can create simple things.

I currently have an internship through Joyn,gg and I am always trying to involve myself with our Python codebase to further learn the logic behind methodology used and to just overall learn all the coding languages and frameworks we use better.
